Develop and Disseminate Resources to Assist States in the Implementation of the NTDETAS

OBJECTIVE

The objectives of this project are to (1) develop and execute a follow-up process to identify the outcomes of NHTSA Driver Education State Assessment / State Peer Review Process and ANSTSE Technical Assistance; and (2) create a resource library on the ANSTSE website for driver education research, case studies, white papers, and best practices.

SPECIFIC TASKS

1. Develop and Execute a Follow-up Process to Identify the Outcomes of NHTSA State Driver Education Assessment / State Peer Review Process and ANSTSE Technical Assistance
2. Create a Resource Library
3. Develop a Comparative Data Document
4. Generate an Information Sharing System Annual Report
5. Create an Implementation Guide

GOALS

- Increase states awareness of the benefits of conducting a NHTSA State Driver Education Assessment / State Peer Review and ANSTSE Technical Assistance.
- Capture how and to what degree the results of the Assessments and Technical Assistance were implemented by States.
- Provide states with strategies to take action to meet the recommendations provided.
- Provide resources to states to assist in implementing the NTDETAS.
- If applicable, provide resources to states to assist in implementing recommendations provided during State Assessments and Technical Assistance.
