## **Association of National Stakeholders in Traffic Safety Education**

The Association of National Stakeholders in Traffic Safety Education (ANSTSE) is an Association of Stakeholders who successfully identify and advocate areas of common ground for novice teen driver education. The Association was formed in 2010 as a result of the publication of the Novice Teen Driver Education and Training Administrative Standards (NTDETAS). The NTDETAS were developed by representatives from the driver education professional community with assistance from the National Highway Traffic Safety Administration (NHTSA). The NTDETAS define the future of driver education and assist in improving the delivery of driver education programs nationally. The newest edition of the NTDETAS were revised and released in 2023.

### **ANSTSE's Mission**

Promote standard implementation of the NTDETAS throughout the United States and territories to save lives, prevent injuries, and reduce economic costs due to road traffic crashes.

Support the Mission by:

- Acting in an advisory capacity to support shared decision-making as a community to identify areas of common ground and consensus to support the National Standards.
- Encourage and strengthen shared decision-making in the Driver Education community; promoting implementation of the Standards.
- Providing support to State leadership with the implementation of these or any subsequent Standards that the Association recognizes.
- Identifying and making recommendations in areas of the Driver Education process or delivery including those that are new, in development or need updated.
- Keeping the Standard document and all subsequent Standards as living documents through ongoing review, revision, refinement by including empiric or theoretic research to support such enhancements or revisions, when available.

### **ANSTSE's Members**

- American Automobile Association (AAA)
- American Association of Motor Vehicle Administrators (AAMVA)
- Association for Driver Rehabilitation Specialists (ADED)
- American Driver Traffic and Safety Education Association (ADTSEA)
- Driver Education and Training Administrators (DETA)
- Driving School Association of the Americas (DSAA)
- Governors Highway Safety Association (GHSA)
- Transportation Research Board (TRB)

### **ANSTSE Accomplishments**

ANSTSE has initiated improvements in the administration of driver education and defining the priorities of the driver education community. The following page lists ANSTSE's accomplishments from its formation in 2010.
